

SKINNY HOT CHOCOLATE

WINTER JUST GOT A WHOLE LOT WARMER WITH NOMU SKINNY HOT CHOCOLATE!

Great news this winter! NoMU's Sugar-Free Hot Chocolate has had a shake up. The same Sugar-Free Hot Chocolate we all know and love has a brand-new outfit. Our delightfully un-wicked **SKINNY Hot Chocolate** is ideal for weight-watchers, diabetics or those unwilling or unable to use cane sugar AND with its new improved packaging, it's definitely the hottest hot chocolate around.

SKINNY Hot Chocolate is aspartame-free and contains sucralose (derived from sucrose which is non-caloric, produces no glycemic response and doesn't promote tooth decay). As usual, only the very best ingredients have been used, including the finest quality imported cocoa making it so rich and creamy that you only need to use one teaspoon to create a thick and totally heavenly mug of hot chocolate – even though it tastes as if you've used three!

SPECIAL NEW FEATURES

- An extra 50g means more delicious servings
- New design and innovative packaging
- New composite cardboard tube means no more dented tins, no more foil packets
- CPA compliant labelling
